WORK EXPERIENCE

Heally – North Carolina, USA

Chief Technology Officer | Feb 2024 – Present

- Built **HeallyHub**, identity & data hub powering the Heally ecosystem.
- Implemented **OAuth2/OIDC auth** (Email OTP, Google, Passkeys) for cross-app login.
- Scaled infra with **Azure Blob Storage, Redis, Docker, CI/CD**, cutting deployment time by 80%.
- Led distributed team across 3 continents, maintaining **99.9% uptime**.

Delsoft – Lagos, Nigeria

Frontend Engineer | Oct 2023 – Jan 2025

- Built **responsive UI components** with React & Tailwind, improving delivery speed by 30%.
- Reduced average load times by **25%** via performance optimisations.
- Enhanced accessibility & cross-browser support, lowering UI bug reports by 40%.

Freelance – Remote

Full-Stack Developer | May 2022 – Present

- Built **personal portfolios and service-based landing pages** for entrepreneurs, freelancers, and small businesses.
- Helped clients **increase online visibility and sales conversions** with responsive, mobile-first designs.
- Integrated features like **contact forms, booking systems, and payment gateways (Stripe, Paystack, Firebase)** to support service-based businesses.

EDUCATION

MICROVERSE

Remote Full Stack Web Development Program, Full Time

June 2022 - January 2023

PROJECTS

Joseph's Website

- Designed and developed a personal branding website for Joseph Gbadamosi, one of Nigeria's top copywriters.
- Focused on **high-conversion UI/UX** to showcase portfolio, services, and testimonials in a clean, modern layout.
- Built with React.js and Tailwind CSS, ensuring responsiveness and fast load times across devices.
