

Johnson Emmanuel

FULL-STACK ENGINEER

EXPERIENCE

MICROVERSE, *Remote*

Mentor (Volunteer), August 2022 – January 2024

- Mentored 3 junior web developers, providing technical support through code reviews.
- Proposed improvements to code organisation to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation and longevity in the program.

HEALLY, *North Carolina, United States*

Chief Technology Officer, February 2024 – present

- Led the development of a learning hub product suite using React, [Node.js](#), and OAuth2 identity
- Scaled architecture with CI/CD, Azure, and Docker while managing remote developers across regions

Delsoft, *Lagos, Nigeria*

Frontend Engineer, October 2023 – January 2025

- Built responsive and modern interfaces with [React.js](#) and Tailwind CSS.
- Improved cross-browser compatibility and reduced load times by 25%.

Freelance Projects, *Remote*

Full-Stack Developer, May 2022 – Present

- Delivered production-ready web apps for clients that increased user engagement and sales of services.
- Built full-stack apps using React, Redux, Ruby on Rails, Node.js, and MySQL.

EDUCATION

MICROVERSE, June, 2022 – January, 2023

Remote Full Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.
